DETAILED ACTION

Status of the Claims

1. Claims 1, 5-11 and 13-15 are pending.

Applicants' amendment filed on December 18, 2002 (Paper No. 13) is acknowledged, and applicants' response has been fully considered. Claims 1 and 5 have been amended, and claims 2-4 have been canceled. Thus, claims 1, 5-11 and 13-15 are examined.

Objection Withdrawn

2. The previous objection of claims 4, 5, 9, 10 and 13-15, is withdrawn in view of applicants' amendment to the claim, and applicants' cancellation of the claim in Paper No. 13.

Rejection Withdrawn

Claim Rejections - 35 USC § 102

3. The previous rejection of claims 1-3, 6, 8 and 11 under 35 U.S.C. 102(b) as being anticipated by Kato *et al.* (J. Chromatography 333, 93-106 (1985)), is withdrawn in view of applicants' amendment to the claim, applicants' cancellation of the claim, and applicants' response at pages 2-3 in Paper No. 13.

4. The previous rejection of claims 1-3, 6-8 and 11 under 35 U.S.C. 102(b) as being anticipated by Pearson *et al.* (High-Performance Liquid Chromatography of Proteins and Peptides, page 81-93 (1983)), is withdrawn in view of applicants' amendment to the claim, applicants' cancellation of the claim, and applicants' response at pages 2-3 in Paper No. 13.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1653

5. Claims 1, 5-11 and 13-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claims 1, 5-11 and 13-15 are indefinite because they lack essential steps as claimed in the method for isolation or purification of a proteinaceous material. The omitted steps are the steps of eluting the proteinaceous material from the solid phase and separating the proteins from the magnetic particles. Claims 1 and 5 are also indefinite because of the use of the term “and/or”. The term “and/or” renders the claim indefinite, it is unclear whether the limitation after “and/or” is included or not, and if included is to be read as an alternative “or” or the conjunctive “and”. It is also unclear how the particles are paramagnetic and also ferromagnetic in claim 5. Claims 5-11 and 13-15 are included in the rejection because they are dependent on a rejected claim and do not correct the deficiency of the claim from which they depend.

7. Claim 10 recites the limitation “between steps (c) and (d)” in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

8. Claim 13 is indefinite because the claim depends from a cancelled claim, claim 4.

Conclusion

9. No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1653

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
